

BOWLS BASICS

JACK

The small white ball

RINK

The "lane" you're bowling on. Each rink has a number.

AN "END"

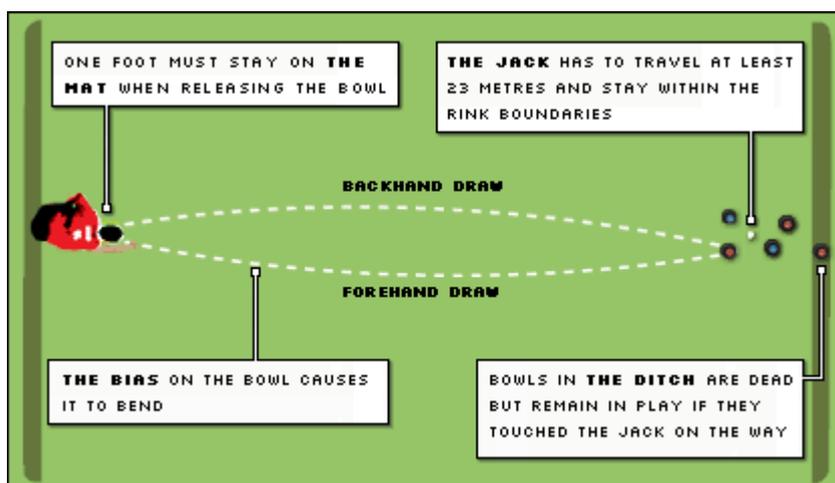

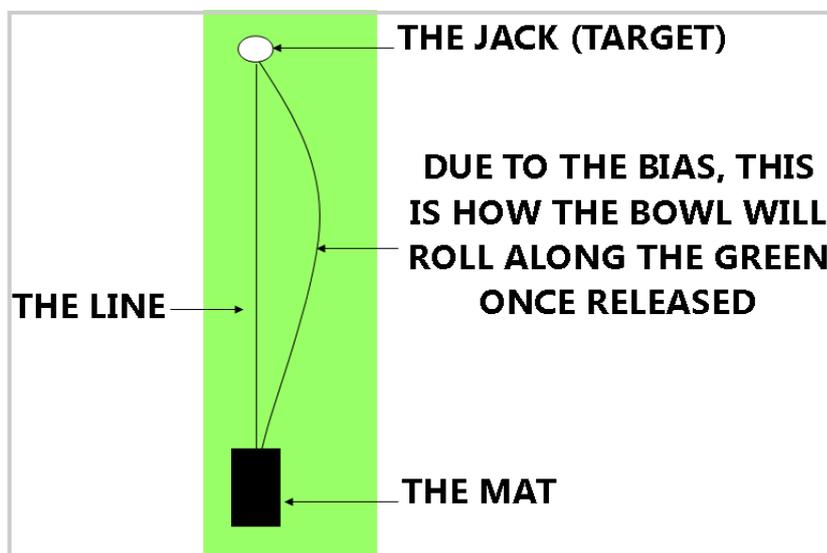

One end has been played once all bowlers have bowled all of their bowls. The next end then begins (at the other end of the rink) and the jack is rolled into place.

Play in teams 2, 3 or 4 with each player having 3 bowls. Roll the "Jack" down to the end of the rink and place on the line.

Before bowling the bowl, ensure that the small emblem on the bowl is facing inwards. This will ensure the bias is correct.

Standing on the mat, keep your weight forward and release the bowl gently along the grass. Each player takes a turn in trying to get closest to the Jack.

Once all bowls have been delivered, the winner of the end is the player with the closest bowl to the Jack. The winner is awarded one point for this bowl and every other closest bowl.

Play as many ends as you like, or set a target score and the first player to reach this score is the winner! See over for other games.

OTHER BOWLS GAMES

DITCH TO DITCH

Each player has three or four bowls. The player who gets closest to the edge of the green before going into the ditch is the winner.

SKINS

Play with 2, 3 or 4 players. Each player has four bowls. The bowl furthest from the jack on each end is no longer playable.

Continue this pattern for each end until only one bowler has any bowls to play and declare that bowler the winner.

6 PIN BOWLS

Place the pins in any order and space apart at the end of the rink. Bowl one bowl each in turn. The bowler who knocks the last pin down is the winner.

THE SPIDER

Ensure there are no other players on the green, or ask them to join in. Place a target in the middle of the green. Players stand around the green and all bowl at the same time. The player closest to the target is the winner. Make sure players have marked their initials on their bowl (with chalk) so the winner can be identified.

**Footwear - Flat rubber soled shoes, barefoot or socks.
(NO sneakers or heels)**

***Please take good care of our greens - no smoking,
drinking, running or eating on the greens.***
